CUSTOMER REVIEWS.

Tracy: Using a pottery wheel was something I had always wanted to do. And I am so glad my first attempt was with Tara, we had so much fun. Tara's expert guidance and good humour, made us feel we could throw a pot and we did.

I highly recommend Tara's pottery lessons, it's so much fun and you leave feeling this great sense of achievement. I will be back.

Danielle: A fantastic pottery throwing class. Tara was fabulous - she gave us the space to be creative and explore techniques, whilst being on stand by to offer her guidance and advice. A really enjoyable couple of hours - would recommend to anyone!

Jayne: Having never done anything pottery based my husband and myself booked on a taster session with Tara using the wheel. Before starting Tara explained all about the clay and how it will act on the wheel.

It was such fun and quite hard to do however we both managed to produce some pots if slightly wonky.

Tara was patient she explained how to do it and never made us feel silly she is so easy and focused but fun at the same time.

We then have had 2 lessons of slab building and I was very happy to produce a vase and a bird house.

Again everything clearly explained and lots of help from Tara.

We have enjoyed it so much that we intend to book another taster session.

So if you want to have fun produce something to take home and be taught by a very experienced ceramic worker who is kind patient and funny then go to one of Tara's classes you won't be disappointed.

Melissa: Tara was an amazing teacher. I would highly recommend to anyone. We had a brilliant time! So much fun learning new techniques. Great results even with no previous experience with a wheel. Really enjoyed this workshop.
